HARD SKILLS

- Problem Solving
- JavaScript Fundamentals
- Advanced JavaScript
- React Development
- State Management
- Next.js
- TypeScript
- Development Tool

SOFT SKILLS

- Problem Solving
- Continuous Learning
- Receptive to Feedback
- High Motivation
- Analytical Thinking

SUMMARY

Frontend Developer with a strong passion for building modern, responsive, and user-centered web interfaces. Experienced in working with modern JavaScript, React ecosystem, and contemporary frontend

Developed multiple frontend projects as part of hands-on learning and

MY PROJECTS

- Hands-on practice with HTML & CSS, focusing on responsive web design and advanced layout modules (Flexbox & Grid) [github](#)
- Hanbok E-commerce (Next.js)
- A scalable, production-oriented e-commerce platform using React Query and Axios for robust data handling and professional-grade UI architecture.
- Flower Shop UI
- A clean, responsive, and accessible e-commerce interface featuring landing pages, product displays, and user authentication. [github](#)
- Dynamic Quiz Application
- An API-driven interactive quiz app featuring categorized question fetching via Axios and dynamic UI updates. [github](#)
- Starbucks Ordering App (React)
- A scalable, React-based interface for ordering products, featuring a modular component structure and a fully responsive, intuitive user design. [github](#)

COURSE

React Development Course – Maktab Sharif

Completed a professional frontend development program focused on modern JavaScript and the React ecosystem. The course covered core React concepts, component architecture, hooks, state management, and building real-world frontend applications with modern development tools.
